The structure you can see is only the frame; the panels arrive next month and go on from the top down, not the bottom up, which surprises most visitors. The two cranes are the slowest part of the job, because only one can lift at a time on this narrow street. If the weather is kind, the roof goes on before winter.

歡迎參加工地導覽。從這裡到最遠的圍籬都必須戴著安全帽，沒有例外。各位看到的結構只是骨架；鑲板下個月才到，而且是由上往下安裝，不是由下往上，這讓多數參觀者感到意外。兩部起重機是最慢的環節，因為這條窄街上一次只能有一部吊掛。若天氣配合，屋頂會在入冬前完成。

W: The architecture of this city can be read in three layers. The oldest is low, built of brick, with arches over every door because that was the only way to carry weight then. The second layer, from the nineteen sixties, is concrete and flat: cheap, fast, and now the least loved. The third is glass — the high-rise offices along the river. Notice that each layer was praised when new and disliked thirty years later, which should make us careful about judging the third one now.

這座城市的建築可以讀成三層。最古老的一層低矮、以磚砌成，每道門上都有拱，因為那是當時唯一能承重的方式。第二層來自一九六〇年代，是混凝土且平直的：便宜、快速，如今最不受喜愛。第三層是玻璃——沿河的高層辦公樓。請注意每一層在新的時候都受讚美，三十年後就被嫌棄，這應該讓我們對現在評斷第三層保持謹慎。

32. Why did old buildings have arches? 答案 B

Quotations in Full

Company	Start	Finish	Price
Company A	May	November	NT\$2.4m
Company B	March	August	NT\$2.6m
Company C	April	October	NT\$2.5m
Company D	June	December	NT\$2.2m

M: Please look at the printed quotations while I compare them. Notice that the cheapest quotation is also the slowest, and the fastest is not the most expensive.
